The ROBLOX site and forum have received a lot of criticism from its users regarding many issues, such as: Administrators are able to delete user-created games without warning or notice. Users can't defend themselves since the only way they could do so is by contacting an administrator or lawyer. Administrators can ban users for doing anything they don't like or don't agree with. However, administrators have been known to ban users for no reason at all, usually if the user is a moderator or an insignificant/low-level user.

On December 4th 2021, ROBLOX added a new feature called "Workshops" to their website. The forums were flooded with many negative comments and claims that it was poor execution of a feature meant for building games. They were also accused of being lazy about implementing it into their website.

ROBLOX has official clients for Windows, macOS, Linux, iOS, Android, Xbox One, and PlayStation 4. ROBLOX also has a game engine called "Build" which can be downloaded for free to those wishing to develop games for their website. Although not officially supported by ROBLOX themselves, the client source code is also available on GitHub. As such, there are unofficial ports of ROBLOX to other platforms not supported officially by ROBLOX such as Xbox 360, Raspberry Pi and Tizen. An early attempt at an iPhone port in 2021 was unsuccessful due to concerns over the stability of the platform and a lack of toolchain support.

As of 2021, ROBLOX does not require end-users to use their own search engine to find games.[18] This is bad as some users search for objects such as skins and items instead of games. This can lead to confusion because they may get a game search that directs them to user's profiles instead.

Some users have noticed that the Roblox logo is a direct parody of Microsoft's logo. The two logos are nearly identical in shape and color scheme. The only difference between the two logos is that Roblox's logo contains a "R" whereas Microsoft's does not. Another parody was made by RulaGames in 2021 called "Robux". This was a parody to show that everything on Roblox cost money.

In January 2021, the official Roblox Studio 2 was released on Steam. It allowed for cross-platform development with Windows 10. However, any existing games made with the previous version (R-Engine) will not work with this new version since it uses a completely different engine.

HelloRoblox2 works in almost the same way as HelloRoblox. It sends you robux once you've uploaded a video on YouTube. However, there is a slight difference. HelloRoblox2 has been around for a while, and because of this, the robux it can send are easier to get. It generally only sends out 100-200 robux per day. This works out to about 1 free robux per week. If you're in a hurry, HelloRoblox2 is probably better than HelloRoblox.

how to get free robux only on computer

Roblox is one of the most popular online games in existence. In my opinion, this game is extremely fun and great for all ages. Although I have been playing roblox for only about a month now, I still love the game so far. Roblox has a variety of different games in which you can play and I enjoy all of them. Another thing I have learned about roblox is that the company behind it is very kind towards their players. Although there are many things to be aware of when playing roblox, the game has many differences from other games and these things make it better than most.

People may think that Roblox is a very childish game but in reality it is not. I have seen many adults playing this game, and I believe that they just maybe started in the past few years. The reason why people say Roblox is a child's game is because it has some pretty high minded themes in the games you can play. For example being able to make your own avatar or being able to decorate your own house, these are things that at first glance seems like something you'd do with your friends or family. Of course these are just things to make players feel good about themselves. But really the game is not about anything but just making a character and having fun.

I like roblox but it is still not better than minecraft in my opinion because minecraft have so much stuff, people can do a lot of stuff. I think Roblox needs to get a lot of money so they can improve more stuff than they already got. I love roblox but I still think that it could be way better, so here is some of my ideas 1. It should have better graphics 2. It should have better game servers 3. There should be more new games, but there is a thing what I don't like about roblox is that the games are kind of the same every single time, and you end up playing them too many times 4. The games should either really get harder or really easier
