Her parents did not approve of this decision and they started a petition on Change.org to get their daughter unbanned back on Roblox. They stated that her ban would be a violation of their privacy rights as well as an infringement upon her civil rights, as a minor. The family requested that Roblox reverse its ban of Arielle and instead give her a warning to stop future harassment, which she committed while playing "Minecraft". The petition received more than 50,000 signatures in less than 12 hours. However, it was then reported by users that the petition had been removed from the website soon after it began. As soon as the petition was received by Roblox, it was announced that her account would be reviewed and further action would be taken in response to how she had "been conducting herself online".

On January 1st 2021, ROBLOX released a new core version update for their engine. They are now using a new source engine called "Bloxlet" and integrated a new built-in physics engine into the game. This feature will allow users to play in one of three different modes: Classic ROBLOX mode which uses the older physics system from ROBLOX, Bloxlet mode which uses the new physics system in ROBLOX 2.0 and fixed bugs, and Customized mode which allows players to customize their own physics setting. This update was expected to start being released in-game on January 15th 2021.[101] This release ended up having some bugs which caused users to get stuck in the game and crashes.[102] However an update was released a few days later, which fixed most of the bugs and added more control for players to customize their suitable physics settings.

On March 3, 2021, ROBLOX released a new logo for the website after receiving much criticism from its community for changing it in late 2021. The new logo removed black completely from the original logo and changed the font to match that of RISC OS. The new logo was the same as it was before, but added a small "2" at the bottom of the logo.

In January 2021, Roblox permanently banned all accounts that were created by Arielle De La Rosa. The company said it was because of her "continued behavior", which included actions such as creating Emily Roe and harassing other users, as mentioned above. Although she had been blocked from Roblox for over a year, they said their original ban for her had been lifted in November 2021. They also stated that she could no longer be unblocked on their platform because of previous harassment reports against other players. The ban was not for her actions, but instead because of the continued harassment she had done.

ROBLOX has also been criticised for lacking any kind of quality assurance for its games. There have been many issues with the quality of some games and many users have complained that their game descriptions are not accurate. The site is also frustratingly inconsistent in the manner it deals with things like this, often banning users who complain about bugs and glitches within their games but not actually banning anyone who commits an illegal act, such as copying someone else's game and selling it without permission.

Roblox has also been accused of terminating its staff whenever they speak out against the company's policies and poor work environment. This is mainly done to avoid negative media attention which would impact their business.

One of ROBLOX's main rivals is Tencent, a Chinese company. The two companies even share employees and developers, including the current admin. ROBLOX as well as Tencent are often compared to each other due to their similarities.

If you look at the way the majority of games are played you realize that one person or a group of players will have a significant advantage over another unfairly and those who aren't as good will be forced to pay more for their virtual items in order to keep up with the better players. That's not fun.

Sorry I do not recommend getting this app. I only got it because I thought it would be fun to build a school and have students move in and learning the right skills. But that's not what this app is about.

On October 10, 2021, Roblox announced that they will be selling 49% of their ownership stake to Tencent Holdings for \$100 million. The transaction is subject to approval by the Roblox board of directors and Tencent before it goes into effect. The acquisition is part of a strategy by RoLabX to become a global gaming powerhouse with operations in China. The deal also confirmed that Tencent will continue to operate as the chief customer and user experience partner for ROBLOX.
