The players who played this game received a message from the developer named Master Zen said that he was working on an update that removed this feature. The update was released in March 2021 and it included an anti-suicide feature where the health would reset to 100 instead of 0. Over the years, ROBLOX has used advertising to generate revenue for their company, which they generate through in-game purchases (microtransactions) or advertisements (which can be annoying for the players). In addition to this, they also generate revenue through selling virtual items (like the aforementioned Builders Club and ROBLOX Credit). The company has also released several games like their top grossing game "Build a Buddy". ROBLOX has been criticized for its lack of funding from advertisers as well as allowing other companies to make games on ROBLOX. The company has been criticized for their children friendly ads which are designed to be easily visible by children but are very inappropriate for them which is seen as a breach of the COPPA (Children's Online Privacy Protection Act) and their end user license agreement, although ROBLOX has since changed its policy. The company also uses an "Ads on the Web" program where they can serve certain types of ads depending upon a player's age and location.

On multiple occasions, ROBLOX has been hacked into by outside sources. In one of the more recent hacks (2021), hackers took advantage of an exploit to provide themselves with unlimited build tools in games. Users without knowledge of the exploit were forced to leave the game because the tools were infinite and other players could not stop them. This issue was not fixed until two days later. [9] ROBLOX has a rule against using bots (automated scripts that allow players to automatically perform actions) but this rule can be easily bypassed due to the fact that users are able to easily create incredibly powerful bots with simple scripting. The easier ROBLOX makes it for users to create powerful scripts, the more likely they are going to be used in botting and/or spamming games. This is one of the reasons why user-created games like "The Plaza" have been taken down.
